CONTRACT AUDIT RULEBOOK

Reference policy for auditing Service Contract Agreement SC-2026-0147

Purpose
Use these rules to check whether the uploaded service contract satisfies the requirements below. The rulebook intentionally contains a mix of requirements that the reference contract satisfies and requirements that it does not satisfy, so it can be used to test a document-auditing / RAG pipeline.

Reference document

Service Contract Agreement between Apex Retail Solutions Pvt. Ltd. and BrightTech Consulting LLP. Compare the contract text against each rule; do not assume that a rule is satisfied unless the contract provides evidence.

Audit rules

ID	Topic	Rule to verify	Expected result	Evidence / rationale

Expected test outcome

Expected PASS: R-01, R-02, R-06, R-08 (4 rules).
Expected FAIL: R-03, R-04, R-05, R-07 (4 rules).

Instructions for the auditor

1. Retrieve the relevant contract clause for each rule.
2. Compare the contract's stated value or obligation with the rule's threshold.
3. Return **Pass** when supported by the contract, **Fail** when the contract contradicts the rule, or **Needs Review** when the contract provides insufficient or ambiguous evidence.
4. Include the rule ID, contract clause, a short evidence quotation or faithful paraphrase, and a concise explanation. Do not treat the expected result in this test rulebook as evidence; determine the result from the contract itself.

Testing note: This is a synthetic evaluation rulebook prepared for testing. It is not legal advice and does not represent a statement that these requirements are legally mandatory.
